Job Sampling Initiative

*Developing Progression
Opportunities for Young
Unemployed
People*

What is the JSI?

The J.S.I. is an innovative new project set up for young people between the ages of 18 & 23 who have left school early and are now unemployed.

Following referral:

1. The young people undertake preparatory training as a prelude to Job Sampling.
2. Job samples are then accessed from an established bank of local employers and each sample runs for 2 - 4 weeks.
3. When up to 3 samples have been completed, an evaluation takes place and participants will have the opportunity to progress onto further education , training or employment.

IF YOU KNOW SOMEONE...

- ... Stuck in the same old routine...
- ... Hanging around with nothing to do...
- ... With no real idea about where they are going...
- ... Looking for work but not really sure what type of job to go for...

**Then why not call the
Job Sampling Initiative**
